

THE FIRST NAME IN LIQUID FILTRATION™

Micro-Cap™ Laboratory Filter

The ErtelAlsop Micro-Cap™ allows use of the various grades of depth filter media ErtelAlsop has made available to the industry for over 85 years. As with all ErtelAlsop depth filter products the Micro-Cap™ provides consistency, lot to lot traceability, in an encapsulated easy to use format.

The Micro-Cap™ allows use of the Micro-Media® XL Series or Micro-Clear™ depth filter media in an easy-to-use, self-contained and completely disposable laboratory filter capsule.

The Micro-Cap™ has three choice of surface area to fit you needs. Ideally sized for laboratory use and scale up for full production is easy.

The Micro-Cap™ Laboratory Filters are perfect for use in small batch processing and scale-up studies. Each Micro-Cap™ is supplied with a specification sheet packaged one Micro-Cap™ per poly-bag.

Micro-Cap™ 60 mm

Micro-Cap™ 70 mm

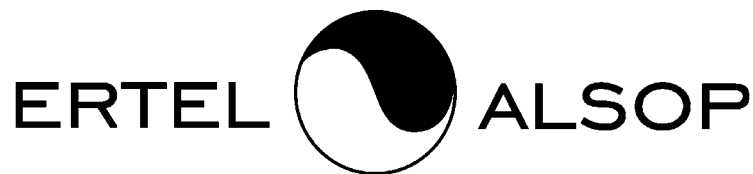

Media Diameter	60 mm	70 mm	70 mm
Enclosure	Polypropylene	Polypropylene	Polypropylene
Filter Area	22.5 cm ²	1,100 cm ²	2,200 cm ²
Pressure Limit	2 bar	2 bar	2 bar
Connections	Hose Barb	Sanitary Clamp	Sanitary Clamp
Vent	Luer Loc with Cap	Hose Barb	Hose Barb
